APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all prior rights on the source and with the express understanding that there is no permanent supply of water available during the irrigation season. It is also understood that there are prior permits on the source still incomplete, and which when completed will probably consume the total flow of the stream except perhaps during the flood period. It is further understood on account of the above conditions that the applicant hereunder will take out the water below the existing diversions on the stream so as to eliminate conflicts. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Three & 2/10 cubic feet per second. (3.2)

Actual construction work shall begin on or before June 26, 1917.

Proof of commencement of work shall be filed before July 26, 1917.

Work must be prosecuted with reasonable diligence and be completed on or before September 26, 1917.

Application of water to beneficial use shall be made on or before June 26, 1923. Proof of the application of water to beneficial use must be filed with State Engineer on or before July 26, 1923.

Proof of labor filed JUL 27 1917 WITNESS MY HAND AND SEAL this 26th, day
Map filed AUG 27 1917

Proof of completion of work filed OCT 31 1917 of February, 1917.

Cancelled OCT - 5 1923 because of failure of
applicant to comply with provisions of permit.

Markearley State Engineer.
